To Whom It May Concern,

We have the pleasure of doing business with the Mr. Kevin O'Brien and the team at The Irishmen on the Hudson, Inc. since we moved into our current location just over ten years ago. Kevin was instrumental in helping us plan the layout for our 85+ seat call center, as well outfit the furniture for our back-office support teams and executive offices.

As we grew and expended over the years, Kevin and his team were called upon frequently to help us with work station solutions and space optimization. Most recently Kevin helped us furnish our 14-person training center with state of the art tables and chairs and storage cabinets.

No job was too big or too small for The Irishmen on the Hudson to handle. We have always received top notch quality service and products and would highly recommend Kevin and his company for all of your office furniture needs. You will not be disappointed!

Regards,

Michael Iwanciw, CPA
